Experienced in front-end web development, I have demonstrated passionate dedication to learning more about this field and improving my skills further. Interested in UX design, making good and accessible apps for everyone.

## Work Experience

### Frontend Developer

**SoftwareSeni**

Jun 2020 - Present

Looking after development and management of the application for clients and build the client-side code for polished web applications from HTML to CSS to Javascript

### Frontend Developer & UI Designer

**Gamified Massive Open Courses (GMOOC)**

Mar 2019 - Aug 2019

Converted website design files into raw HTML, JavaScript (JS) and CSS code. Made sure the website is mobile-friendly and also designed UI/UX.

### Freelance Web Developer

**Self-employed**

Mar 2016 - Present

I'm freelancing to create a web design and do some small projects for numerous clients in my free time. Some of my previous works can be seen here **https://fukuo.site/portfolio**

My responsibilities is designing and building layouts using HTML, CSS, JavaScript and Tumblr-spesific blocks and variables. Execute the development process and do the maintenance and provides supports to them.

## Education

**Universitas Amikom Purwokerto**

2016 - 2020

Bachelor of Computer Science

**GPA** 3.77 (out of 4.00)

## Skills

HTML, CSS, JavaScript, jQuery, Vue.js (Nuxt.js), Visual Design, Prototyping, Wireframing

## Tools

Figma, Adobe Photoshop, Git, Notion

## Honors & Awards

**Hackfest 2018 (Universitas Atma Jaya Yogyakarta) - Top 10 Finalist**

Involved in front-end development, building a website from scratch using HTML, CSS and JavaScript

**IITF 2016 (Universitas Amikom Purwokerto) - 1st Winner**

Built a static website with a theme "education"
